Full Stack MERN Developer

Summary

Developer with over **three years of experience** specializing in **MongoDB, Express, React** and **Node**. Proficient in leveraging JavaScript frameworks to deliver engaging user experiences. Skilled in using tools like **ReCharts, ShadCN, Material UI**, and **Tailwind CSS** for robust front-end development. I have a track record of mentoring junior developers and am eager to contribute my expertise.

Professional Technical Summary

- Three years of web development experience specializing in the **MERN stack** (MongoDB, Express, React, Node).
- Proficient in additional tools like **Tailwind, ReCharts, Redux, Material UI**
- Developed features such as **compliant e-invoicing with Zatca** (Saudi E-Invoicing system), **real-time video calling** and **Sending SMS** using Twilio APIs.
- Capable of working effectively both independently and within a team.

Skills

Frontend:

- **JavaScript** (ES6+)
- **React.js & Redux** (Building dynamic and scalable user interfaces)
- **CSS Frameworks** (Tailwind CSS, Material UI) (Rapidly creating beautiful and responsive designs)
- **Data Visualization (ReCharts)** (Effectively communicating data insights)

Backend:

- **Node.js & Express** (Building robust and scalable web applications & APIs)
- **Databases (MongoDB)** (Flexible and efficient data storage)

Security & Communication:

- **JWT Authentication** (Implementing secure user authentication)
- **RESTful APIs** (Designing well-structured and consumable APIs)
- **Video Calling Integration (Twilio)** (Adding real-time video communication features)
- **SMS Integration (Twilio)** (Sending SMS to users phone)
- **Zatca (KSA Gov Service)** (Ensuring compliance with KSA regulations)
- **Azure AI (Speech Recognition/Text-to-Speech)** (Leveraging AI functionalities)

Additional Skills:

- **Version Control (Git)** (Managing code efficiently and collaboratively)

- **Soft Skills (Communication, Problem-Solving) (Effectively collaborating and delivering solutions)**

Professional Experience

December 2023 – April 2024 | Emvive

Hyderabad - India

Full stack developer

E-invoicing

- Developed web app using the MERN stack (**Mongo, Express, React, Node**)
- SaaS product.
- Integration between system and **Zatca** “Zakat, Tax, and Customs Authority”
- Substantially reduced rejection from Zatca system by adding a in-system validation page, where user and system could validate the record before sending to Zatca

August 2022 – October 2023 | Arcgen Technologies

Hyderabad - India

Frontend Developer

Vizzhy (Healthcare)

- Developed web app using **React.js, Redux, React router, and Azure AI**.
- Responsible for turning designs into functional web pages and maintaining them.
- Single handedly created features like **Automated Speech Recognition and a real-time chat**.
- Assisted in team task allocation and project management for efficient work completion.
- Ensured quality and efficiency in project execution, focusing on delivering results that align with client goals

Dr.Voxel (Healthcare)

- Created a Patient-Doctor website using **React.js, Twilio, React charts, Redux and React router**.
- Integrated Twilio to implement **real-time video calling functionality**, enhancing patient-doctor interaction.
- Utilized Twilio for SMS services, enabling effective communication and notifications within the app.
- Ensured ongoing maintenance and improvement of web pages, adhering to high standards of quality and functionality.

January 2021 – July 2022 | Emvive

Hyderabad - India

Frontend Developer

Human Capital Management (HCM)

Employee Module

Employee management system which allows to track employees, allowance benefits, and loans management

Payroll Module

System for managing an employee's payroll, deducting any necessary payments, adding allowance, giving monthly compensation or one time compensation and more

Leave Module

System for managing an employee's leaves. Which is closely linked to the payroll module for proper processing and leave approvals.

- Developed, and maintained the web using **Vue.js, Nuxt.js Vuetify, Vuex**.
